KENNEDY'S MARXIST RECORD

HIS RECORD IN QUESTION -- NOT HIS RELIGION

INVISIBLE GOVERNMENT PROMOTES HIM - WILL RULE HIM

BEHIND KENNEDY STANDS THE JEW

Catholics and Protestants have been taken in by a carefully devised plan by which Senator John F. Kennedy has been portrayed to the voters as an earnest, sincere, sample of an American Catholic of presidential timbre, opposed only by anti-Catholic bigots.

The Kennedy clan has relied on the advice of top political experts and on the results of surveys and polls conducted to determine the reaction of various segments of the populace to Kennedy's Catholic background, his wealth, political image, etc.

Long before Kennedy ever entered a primary he knew that his brand of Catholicism was going to be a tremendous asset politically. He has used his religion as a cloak to mask his real beliefs, to divert voters' attention away from his political record, to portray himself as an underdog fighting entrenched bigotry.

What will happen to this country and to American Catholics and other Christians if Kennedy becomes President?

(1) The Kennedys will become the new royal family, supplanting the decayed Roosevelt clan.

(2) The Felix Frankfurter-David Niles-Harold Laski plot to destroy America — initiated over forty years ago — will come into full fruition.

(3) The ADA (Americans for Democratic Action) New Deal axis will take over the national political patronage reins and establish a spoils system reeking with evil.

(4) The Anti-Defamation League-American Jewish Committee-American Jewish Congress organizational bloc — so beloved by Kennedy — will be given carte blanche by Kennedy so that they can proceed without the slightest hindrance in their plan to Judaize America and to debauch the youth of our Nation down to their own level of degeneracy. Kennedy will not be able to stop them; he is in too deep with them now.

(5) All Congressional, State and local investigations of subversive activities will be stopped dead in their tracks and any attempts to limit treasonous activities in the future utterly proscribed.

(6) America will be forced to accept unlimited immigration of the criminal, subversive scum of the world into this country.

(7) Segregation will be ruthlessly suppressed in the deep South.

(8) The United States will lose its national sovereignty and will become in fact merely a member state of a world state centered in the U.N.

(9) Individual liberty will be eroded to the vanishing point and the enslavement of the citizen of America under the domination of a world marxist-Jewish ruling cabal will become a virtual certainty.

This Plan of Destruction is the blue print of infamy which has guided the conspirators behind Kennedy and which has motivated every move he has made in his quest for supreme power in America. Kennedy has been chosen as a front.

Senator Kennedy chats with Liberal Party leaders (l. to r.) David Dubinsky, Al Rose, Adolf Berle at Hotel Astor, New York City, June 23rd. The Liberal Party conditions its members for communism.

Here is proof such a plan exists:

(1) From the first moment that Joseph P. Kennedy, the Senator's father, first appeared on the political horizon of America prior to World War I, when he started clawing his way up the ladder of success out of the jungle of Boston ward politics and saloon-keeping so dear to the Kennedys before 1914, he has shown that he was driven by a madman's ambition to achieve the very pinnacle of power, no matter what the cost to himself and his family.

At the age of 25 he manipulated himself into the presidency of a small East Boston bank his father had helped found. He married the daughter of the Mayor of Boston, a good political match. He attended Harvard where he could rub elbows with the wealthy intelligentsia he envied so bitterly.

He muscled his way into the film industry in Hollywood by gaining control over a film exhibitors chain of theatres, realized \$5,000,000 profit in a few years, and moved into Wall Street as possibly the most ruthless speculator ever to operate there in the 20's. When bankrupt millionaires were raining out of windows as suicides after the Great Stock Market Crash, Joseph Kennedy was sitting back chuckling and counting a fortune of \$700 million he had made on Wall Street by withdrawing from

the market prior to the crash. He had fleeced the wolves on the Street, the public and anyone that got in his way until the signal for the crash was given. He was one of the tiny handful of men who had advance knowledge of that crash. His actions at the time prove this.

He jumped on the Roosevelt bandwagon at the earliest possible moment and upon the recommendation of Felix Frankfurter, was rewarded with the Security Exchange Commission chairmanship by "FDR. He turned on his Wall Street associates and friends like a rending wolf and used the mailed fist of power given him by the Securities Exchange Act to smash the free market forever, in exact accordance with the instructions given him by his mentors. After this top New Deal plum had been handed him, he moved on to other jobs culminating in his acquisition of the choicest post in the diplomatic world, that of the Ambassadorship to the Court of St. James, which he held just prior to World War II. He had intended to use this as a springboard to the Presidency.

Sickeningly adulatory articles concerning the Kennedy clan and its every member have been planted in major magazines and newspapers for many years past. One, "The Amazing Kennedys," in the Saturday Even-

Our Government Is Subjugating Its People

By Merwin K. Hart
President National Economical Council
(From Letter 467)

Amendment IX to the Constitution of the United States says:

"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."

Amendment X says:

"The power not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people."

Presidents of the United States since 1933 have in important respects violated these provisions of the Constitution. They have by just so much brought the American people under unlawful government subjugation.

For there has been a tendency under the Roosevelt, Truman and Eisenhower Administrations to take more and more control of government and of government policy away from the American people.

This is true in both domestic and foreign affairs. The trend has continued as much under the Eisenhower Administration as under the two former ones. In fact in some respects the tempo has been stepped up.

We don't mean that Mr. Eisenhower has consciously been a party to this. But government has grown vastly—is now doing so many things that no single mind can encompass them all. The President must of necessity depend upon others, many of them "liberals" or left-wingers with grandiose ideas about "one world"—and who know exactly what they want. Since the President himself has never been a great reader, his knowledge of history is limited. The infiltration by world governmenters and even communists in the government has been great. Much has happened without Mr. Eisenhower realizing it, although a great measure of responsibility attaches to him.

There is not the slightest question that those, who from behind the scenes shape the course of government, are preparing to submerge America in a world government, which in all human probability will be directed and controlled from Moscow.

We point out a few instances of what we mean.

Every informed American knows that public spending and taxation have well-nigh burst all bounds in Federal, most State, and many local governments. In all three fields the spending in most cases has reached a point where it seems to grow by itself.

Now for several years past the Federal Government has brought its peace-time spending up to the level of the war years. Federal fiscal year 1959 had a deficit of more than \$12 billion.

New and gigantic expenditures are planned, or we have been committed to them. Example: the Narrows Bridge at New York, to cost some \$360 million—and no one knows how much more. Already the gigantic \$41 billion Federal highway plan has bogged down in recent months because the actual cost will go far higher. There are the various schemes for Urban Renewal which will have the three-fold effect of spending new and additional sums, will give certain insiders the opportunity for huge rake-offs, and will end by taking power away from the States, the local government and the people themselves.

There has been no such decline in Federal spending since the Korean War as there was after World War II. If even the present

level is maintained, freedom in America cannot survive. There would be almost no margin to allow us to bear the expense of another war—and there is a grave possibility we will become involved.

Most of those in our Government hold out little hope for the American taxpayer. Their view clearly is that the scale of public spending in future must keep up with the growth of national wealth, or as they are fond of saying, with the "gross-national product."

All this means, as we said above, that America has at the present moment lost control of its own affairs. Their general drift is being shaped by hidden forces. Amendments IX and X, with all the safeguards they were meant to give, have been largely ignored.

It is not only in spending and taxes that the hidden forces have been at work. The utterly uncalled for integration decision of the Supreme Court of the United States in May 1954 was carefully planned to create a discord that would add to the country's troubles. There is little doubt that the demand for that decision was communist-inspired, though perhaps none of the assenting Justices knew this was so.

It is common knowledge that down to 1954 relations between Negroes and Whites in the South had been improving steadily, though gradually, since the end of Reconstruction in 1877. Further and increasingly steady improvement in race relations could have been expected. But the integration decision, based as it was almost wholly on

IN APPRECIATION

To my many friends who sent beautiful cards and cheering words, please accept this as a public expression of my gratitude. When the outlook is not bright, it is consoling and encouraging to feel you are not alone.

Please continue your prayers and assist in any way possible so that we can manage to pull through the difficult summer months and not get further in debt. Many problems face us and now there is the added burden of hospital and doctors fees.

Time is growing short. Let's keep slugging and NOT allow these Godless gangsters to discourage us as we continue to open the eyes of more Americans and draw them to our side, the right side, the side for freedom as against slavery if we give in.

Conde McGhee

the writings of Gunnar Myrdal and other socialists, has not only stopped the upward trend of race relations in the South, but has reversed it.

The evil affects of this decision have extended to many parts of the country. In Washington, as is well known, thousands of White families have left the city for Virginia or Maryland. In New York City the same situation has taken place, and continues to take place, prompted by the narrow-minded vote-seeking eagerness of the Wagner Administration. There is trouble in Philadelphia and Chicago and in other cities.

During the past two years, a movement, communist-inspired as was the Supreme Court decision, has started to persuade the various States to adopt what is called "Fair Housing" bills. The model bill was drafted by the National Lawyers Guild, which has long been under fire by the Attorney General of the United States. This bill would forbid any person owning a two-family house or larger housing unit to raise any question as to the race, creed, color or national origin of a prospective purchaser or tenant. The bill has already been enacted in four States, Connecticut, Massachusetts, Oregon and Colorado. It will be pushed in all States, according to the National Lawyers Guild. Governor Rockefeller of New York has committed himself wholeheartedly to it.

Yet what this Bill does is to insure to people of other races than white that they may rent or buy wherever they please, while in effect refusing to white Americans the right to choose their neighbors and tenants.

No wonder this scheme is causing discord. And our cheap ambitious politicians are not hesitating to use it with the hope of gaining votes.

Similarly certain Supreme Court decisions affecting communism could hardly have been more pro-communist if they had been written in the Kremlin itself. State Legislatures have been refused the right to investigate communism on the ground that the Federal Government has reserved that to itself (which simply is not true). Convictions under the Federal Smith Act have been reversed and convicted communists freed. The Court has ruled that the State Department cannot refuse passports to communists.

It is hard to see how anything could cause greater dismay to persons who recognize the communist danger, or create greater confidence in the hearts and minds of communists, than these decisions.

But that is just what these decisions were intended to accomplish—not necessarily by the Supreme Court, but by the communist infiltrators who inspired them.

We said above that the tendency has been to take control of their own government away from the people. The actions such as Roosevelt's recognition, entirely on his own, without Senate approval, of the Soviet Government in 1933, or the Supreme Court decisions above cited, were in most cases the actions either of officials exceeding their proper authority (as in Roosevelt's case) or by appointed officials.

Due to the immense power concentrated in government, especially the Federal Government, the people seldom have the opportunity to speak up.

So much for domestic affairs. In foreign relations the situation has been at least as bad and probably worse.

We refer particularly to the effect of the defeat of the Bricker Amendment in 1955. This Amendment was introduced in the Senate on the opening day of the 84th Congress by sixty-four Senators. That was enough to insure the necessary two-thirds vote, had all of them stuck. But, President Eisenhower, who at first truthfully said that under the Constitution the President plays no part in the amending process, later reversed himself and went all out to defeat this Amendment. And it was defeated—by a single vote.

KENNEDY'S MARXIST RECORD

—o— Continued from page 1 —o—

ing Post of September 7, 1957, predicted that Jack Kennedy would become President, Bobby Kennedy the Attorney General and Teddy Kennedy the Senator from Massachusetts. And behind all of them their father, pulling the strings, would be the real power.

Already, the Roosevelt clan has hitched its wagon to the Kennedy's and indicated that it wishes to pass on the royal mantle. FDR, Jr., a number of years ago in New York, campaigned for Kennedy in Wisconsin and in West Virginia in return for a promise of rich rewards later if Kennedy won the Presidency. Eleanor, petulant as always, has been running hot and cold with Jack. His reticence to reveal his true attitude towards Senator Joseph McCarthy — at a time when it would have been politically inexpedient for him to do so — irritated Eleanor, so she sniped at him for some time in her column. Later, at the height of the Labor Rackets Investigation publicity engendered by the committee holding that investigation, of which Kennedy was a member while his brother ran the staff, Eleanor presented herself one day during the hearings and found to her dismay that Jack Kennedy had snubbed her and left the room.

By 1960, however, in the heat of the campaign, the deals were made. Eleanor, as moderator of a TV show at Brandeis University, had Jack appear on her show. She gave him her political blessing. (N.Y. Daily News, 1-4-60, p.24). She knows it is far better to be a political maid to the Kennedys than to live in obscurity with a few mementoes from her days as Queen of the Royal Palace.

(2) A man named James M. Burns, "a liberal Democrat and member of the Americans for Democratic Action in Massachusetts," wrote, after having been given full access to the Kennedys' private papers, a biography entitled John Kennedy: A Political Profile (Harcourt, Brace and Co., New York, 1959, 1960). It was reprinted in part in 12 installments in the Marxist-Jewish organ, The New York Post, starting with the May 16, 1960 issue. By this action the Post notified its readers — predominantly Jewish — that Kennedy was their man.

In this book John Kennedy is described in unmistakable terms as a "liberal" far over to the Left, "without emotion, without sentimentalism." He was educated at non-Catholic schools, a procedure followed by Joseph Kennedy with all of his male children, including Choate, a private school which had been attended by Adlai Stevenson and Chester Bowles, the latter currently Kennedy's adviser on foreign policy; Harvard; and the "London School of Economics to study under the noted communist professor Harold J. Laski, whom he (Joseph) knew through Felix Frankfurter from the old Boston days." Burns quotes Joseph as stating that "he wanted Jack to rub shoulders with the polyglot population of British Laborites, European refugees, radicals from the colonies, Indian civil servants, and others at the school. Joe Jr. had already studied under Laski, who had come to love the eager, zestful boy." The "others" referred to above were the materialistic, atheistic, marxist-Fabian and communistic professors and students who are trained in the London School in revolutionary tactics.

The London School of Economics is the most anti-Catholic, anti-Christian and anti-God institution on earth; it is even worse than Harvard.

Regarding Harold Laski, Jonathan P. Mitchell, before the Jenner Internal Security Subcommittee on Internal Affairs, testified that Harry Dexter White, Soviet espionage agent, considered Harold Laski's book, Faith, Reason and Civilization, "by all odds the most profound book which had been written in our lifetime, and that no one had foreseen with such uncanny accuracy and depth the way in which the world was going . . . White was so enthusiastic about Laski's book, which was an encomium of communism (that) when (Mitchell) was critical of

President 1964?

Strong man behind Kennedy now. Will he be President in 1964?

Laski and his book, White became so irate that he started what might have developed into a fist fight." (These Days, column in N.Y. Journal American, 4-16-54).

Regarding this book, Mr. Mitchell testified that: "the thesis could be put as saying that the 2nd World War was the end of a great historic period, and that private business or capitalism had proved itself inadequate, and that the faith which underlay it, the Christian faith, no longer had any validity for the people who were living then; and that, happily, the Russians had worked out a new system of economics and a new faith which could replace capitalism and Christianity." White believed the Christian era had come to an end, to be replaced with a Judaic-Marxist civilization. Karl Marx wrote: "The Jews have emancipated themselves to the extent that Christians have become Jews." This is the heart of the plot envisaged by Laski, Frankfurter, and Niles — a triumvirate of traitors — as based on Talmudic logic, codified in the Protocols, and developed by the so-called New Dealers.

Laski also wrote Karl Marx, another book, which developed the details of the plot. Laski was probably the most powerful communist agent in the world outside of the U.S.S.R. The difference between Laski and the normal stereotyped Soviet espionage agent, however, was that Laski originated world communist theory in his writings and initiated espionage activities against the free world at the very highest level. Frankfurter and Niles had acknowledged Laski as their political mentor even before 1920, the period during which Joseph Kennedy had been initiated into the cult they founded, the outward manifestation of which was the openly Marxist Ford Hall Forum, of Boston.

To this day Joseph Kennedy does not make a move without intimate consultation with Felix Frankfurter and his heir, Charles Wyzanski.

Joseph Kennedy sent two of his sons to study at the feet of one of the most Satanically evil Jews that ever lived upon this earth, a man who hated God, who plotted with his utmost strength to destroy Christianity. He and his whole clan are dedicated to furtherance of the Laski-Frankfurter-Niles Plan. Through these men, Kennedy made his great fortune on Wall Street.

(3) Herbert Lehman; Eleanor Roosevelt; F.D.R. Jr.; Arthur Schlesinger, Jr. (formerly Stevenson's speech writer), of Harvard; Henry Steele Commager, beloved to the point of idolatry by the Communist Party for his attacks upon anti-communists; John Kenneth Galbraith, of Harvard, another Communist-frontier; — all of these messengers of marxism have publicly declared themselves in favor of Kennedy as President. The first four named represent the ADA, in fact they are top leaders in that unspeakably corrupt and revolutionary group

of conspirators. These carrion birds of prey are circling now waiting to tear vitals out of the body politic which will be left to them once Kennedy has made the kill. The corruption which will result if Kennedy becomes President will inevitably elevate the ADA into the position of absolute ruler of both political parties.

(4) Kennedy's appearances before Jewish organizations has been so extensive that at present there is not a major Jewish group from Maine to California before which he has not appeared at some time during the past decade. No "Catholic" politician in this country has even approached his record of association with Jews. Kennedy's preference for Marxist Jews is so pronounced that he has avoided appearances before Catholic audiences unless it has been absolutely necessary.

His "Message to Massachusetts Voters," published in a Boston Jewish paper, (also published in our issue No. 344) was so Jewish in content that no rabbi could have done better. His speeches before the American Jewish Congress, the Anti-Defamation League, the B'nai B'rith, the American Jewish Committee, have all but promised the United States Treasury to Israel.

Kennedy's voting record in the House and Senate has consistently followed the line espoused by the Jewish opinion molders. Jake Arvey, Jewish political boss of Chicago has named Kennedy as his choice for President.

(5) He has supported aid to Yugoslavia. His biographer noted, with favor, that Kennedy had prepared a speech in favor of the censure resolution against Senator McCarthy which was not delivered because of a procedural delay at the time. "McCarthy symbolized everything Kennedy personally detested." Kennedy fought tooth and nail for the identified long-time Communist Party member, Corliss Lamont, in closed committee meeting when McCarthy wanted Lamont cited for contempt. He also voted to weaken the Subversive Activities Control Act and consistently opposed congressional investigations of communism throughout his political career. He opposed the loyalty oath for students receiving loans from the government. Over and over again his votes on anti-communist measures gave great aid and comfort to the Communist Party. Twice he voted against an immunity bill which would have compelled communists to testify and not use 5th Amendment.

(6) Kennedy wrote a pamphlet, A Nation of Immigrants, for the ADL (Jewish FBI), which agency has propagandized Kennedy's candidacy throughout the U.S. by distributing this plea for unlimited immigration of Jews into this country.

(7) Kennedy has never failed to support "civil rights" measures against the South. Time and again he has informed Jewish groups and others before whom he has spoken that he was pro-integrationist. There is no more deadly enemy of the South and of its way of life than Jack Kennedy. If Kennedy is elected, the death knell of the South's fight against integration will have been sounded. Nixon as a member of the NAAOP is actually of less danger to the Southerners than Kennedy is — and still there is evidence that Southern Democrats are bemused by Kennedy.

(8) Kennedy is completely internationalist in his outlook. His major speech on foreign policy recorded in the Congressional Record, June 14, 1960 is a grotesque plea for a tremendous advance in foreign aid to the entire world as the method of combatting communism. He called for aid to Red Poland and other Iron Curtain countries; opened the door for recognition of Red China by stating: "Perhaps a way could be found to bring the Chinese into the nuclear test ban talks at Geneva, for if we reached an agreement which did not bind Red China, then atomic tests could be continued on the mainland of China without inspection — and Red Chinese possession of atomic weapons could drastically alter the balance of power."

OUR GOVERNMENT IS SUBJUGATING IT'S PEOPLE

—o— Continued from page 2 —o—

The original Bricker Amendment reads as follows:

"Section 1. A provision of a treaty or other international agreement which conflicts with this Constitution, or which is not made in pursuance thereof, shall not be the supreme law of the land nor be of any force or effect.

"Section 2. A treaty or other international agreement shall become effective as internal law in the United States only through legislation valid in the absence of international agreement.

"Section 3. On the question of advising and consenting to the ratification of a treaty the vote shall be determined by ayes and nays, and the names of the persons voting for and against shall be entered on the Journal of the Senate."

Treaties have always been subject to ratification by the Senate. Pres. Theo. Roosevelt, early in the century, created a bad precedent when he effected an important deal with another country and called it an "executive agreement." For the first time in our history the Senate was by-passed in such a matter by a determined President. And this executive agreement idea prevailed. The Senate didn't have the wisdom and fortitude to challenge it. The same process was used by F.D.R. in the Teheran, Yalta and Potsdam Conferences.

Until something very like the Bricker Amendment is adopted, the Administration, advised by such men as Milton Eisenhower, Paul Hoffman, Charles Bohlen and others, will have the power to sell this country completely out either to a world government or to Soviet Russia itself. And the trend seems to be steadily in that direction.

It is not too late to remedy this evil, though it is very late.

All that is needed in order to preserve American freedom under the Constitution is for a handful of wise, influential and dedicated men and women in every Congressional District, and in every State, to determine that their Representative and their two Senators shall actively work and fight in their respective Houses to stop this trend. For the Congress of the United States is all powerful.

James W. Girard, Former Ambassador to Germany, in the New York Times, Oct. 8th, 1934, said: "As a friend of the Jewish race I want to state that if ever the American nation gets the idea that the Jewish race and Communism are synonymous, there is the possibility of a pogrom in the United States that will make those of the Czars' era look like a small parade."

KENNEDY'S MARXIST RECORD

—o— Continued from page 3. —o—

Such a statement is not just unrealistic; it is not merely a type of a plea which could have been written in Moscow; it is an indication of Kennedy's utter contempt for the intelligence of Americans. To negotiate directly with Red China in nuclear test ban talks involves direct recognition of their government and would open a Pandora's Box of Evil. Nor could Red China be bound by any agreement, no more than the Soviet Union has ever been bound.

(9) Kennedy has made an infamous deal with Walter Reuther in return for protection of Reuther's power in the unions. He and his brother tried desperately to destroy James Hoffa, not because the man is a racketeer and evil, but to merely eliminate one evil for a worse evil, Reuther. As a pay off, Red-fronting Michigan Governor G. Mennen Williams, has already jumped on the Kennedy bandwagon (under Reuther's instructions). This deal has been attacked by Westbrook Pegler and Barry Goldwater. Under Kennedy, Walter Reuther would assume dictatorial powers over the entire union world and eventually head a Labor Party which would be as destructive of individual freedom in America as is possible without an actual communist revolution taking place.

Catholics are being led into a terrible trap. Past exclusion of Catholics from the Presidency has blunted many Catholics' sensibilities as to the real issues involved in this upcoming election.

Catholics who vote for Kennedy because he is a Catholic, should examine his record. If elected, Kennedy will not be able to reject the liberals, socialists, communists, Marxist Jews, etc. who have put him in office. It will be a big move towards World Government and communism. All of this will reflect discredit on the Catholic Church.

There is a wide circulation of a letter dated June 17, 1960 to liberals stating that inasmuch as Adlai Stevenson cannot be nominated that all liberals back Senator Jack Kennedy. This letter — signed by the most left of the liberals among them.

Joseph L. Rauh, Jr., Past President of the Jewish red front Americans for Democratic Action, Arthur M. Schlesinger, Jr., National Co. Chairman of A.D.A., Arthur J. Goldberg, Walter Reuther's man who is chief counsel for the C.I.O., Harry S.
